LTECH Whole House Intelligence
Enjoy the Exceptional Quality of Life

High-end living space with whole house intelligence

When you get home, lights will automatically turn on

After you issue a voice command, curtains will close automatically

Each time you wake up in the morning, beautiful music will start playing for you

.....

Based on the world's leading intelligent lighting technology, the philosophy that "Create healthy and comfortable lighting environments" is built into LTECH Whole House Intelligence. Smart gateways, home appliances, speakers and other smart devices are controlled by a smart home system to build the smart ways you live with multiple interaction modes. We commit ourselves to creat a green, high-end and comfortable smart life for each user.

Super Panel Family for Whole House Intelligence

Smart Home Accessories

Control all your home appliances through multi-device interconnection

Intelligent LED Drivers (Bluetooth 5.0)

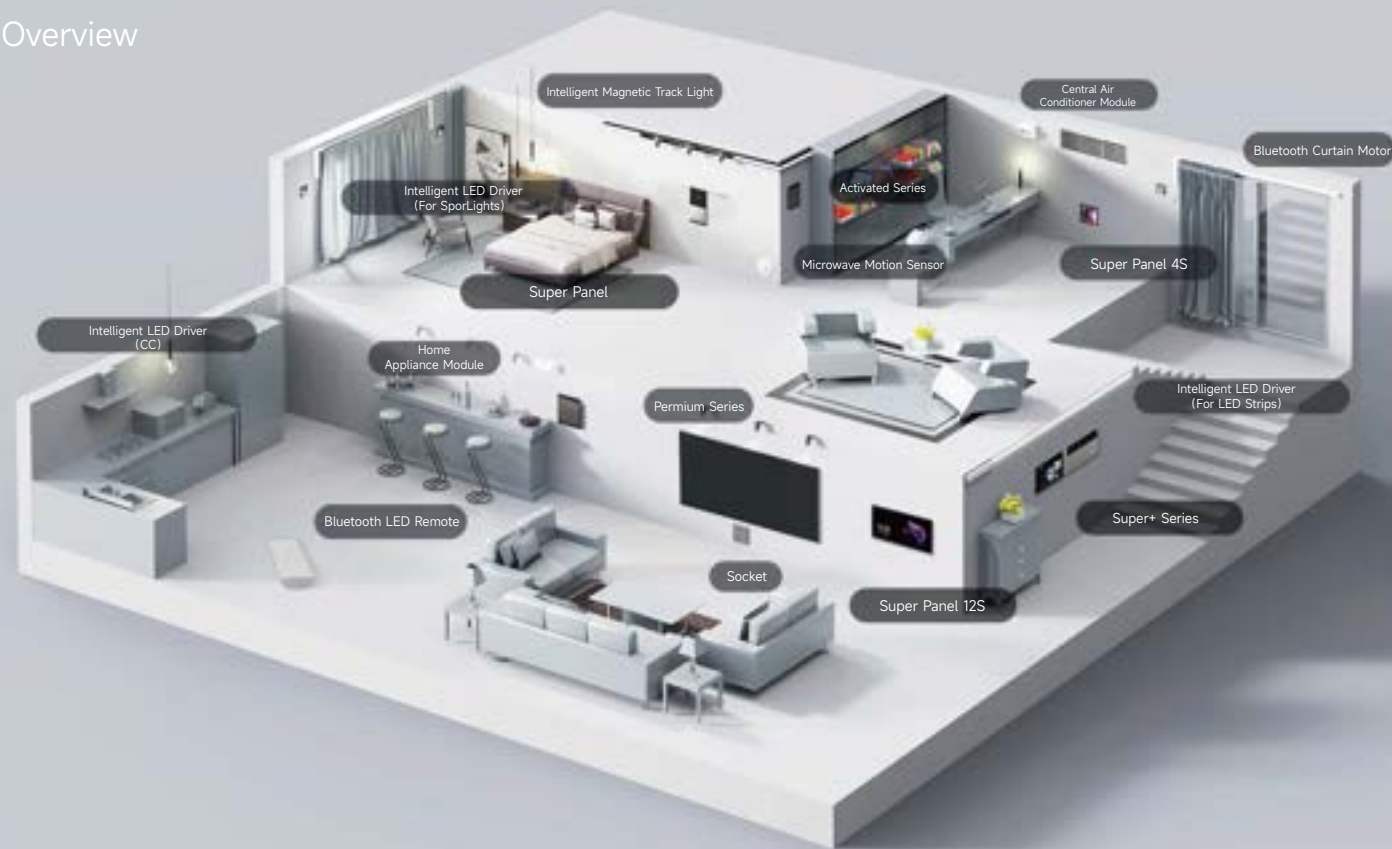

- **Million-level depth dimming**
0.0001% dimming level
- **Adaptive lighting**
Adapt lighting to meet your current needs
- **Distributed local scenes**
No Internet, no gateway needed
- **Up to 300 nodes**
Signal relay function
- **OTA update**
Update to the latest firmware version and access the newest technology

The most comprehensive certifications in the industry

LTECH Whole House Intelligence

Overview

Create the Aesthetics of Your Home

Reduce complexity through centralized management

Smart Gateway | Smart Lighting | Smart Home Appliance | Smart Speaker

Ensure the stability in a large house

Even without the Internet, several hundred devices can still work on LAN

Support Ethernet, 2.4 GHz, 5 GHz Wi-Fi or Bluetooth 5.0 SIG Mesh connection

2.4G/5G

Bluetooth 5.0 SIG Mesh

Type-C port

Infrared home appliances

Upgrade

Ethernet

Bluetooth 5.0 SIG Mesh System

Ultra strong networking capacity

Support up to **300** nodes

Each node extends signals to every other node

2 times

Transmission speed

4 times

Communication range

8 times

Data capacity

*Compared to its predecessor Bluetooth 4.2

Two Types of Bluetooth Mesh Network Protocols:

Standard

SIG Mesh Network
Made by Bluetooth Alliance
Verified by international technical experts

Nonstandard

Private Mesh Network
Made by private corporations
No certification for its stability

*All LTECH Bluetooth products are SIG Mesh-certified

New technology for storing distributed scenes

- Local scenes
- No gateway needed
- No network required

Edge computing for devices running locally at high speed

Faster, more stable

Detect nearby people and changes in light level, temperature and humidity

- Light detection : Automatically adjust screen brightness
- Distance detection : Screen wakes up automatically when people is detected within 1m
- Temperature & humidity detection : Automatically detect surrounding temperature and humidity

Empowered by AIoT

Break through the boundaries of smart home ecosystem

- Works with Amazon Alexa and Google Assistant

Three interaction modes

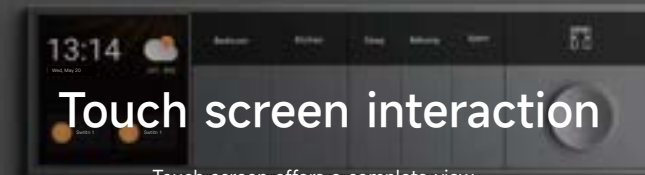

APP interaction

Control your devices
from anywhere and anytime

Touch screen interaction

Touch screen offers a complete view
and places operations literally at your fingertips

Button interaction

It is appropriate for people of all ages

Adaptive Lighting

Match the needs of human biological cycles

Applications (no settings required)

Full Circadian Lighting

LTECH Home AI can get the weather forecast and mimic the intensity and color temperature of natural light throughout the day to support human circadian rhythm.

Super Applications

Customized Circadian Lighting

Customize circadian lighting curves that meet the demands of lighting in residential homes, hotels, offices, supermarkets, schools and hospitals.

Go Above and Beyond

A ultra smart display defines your future life

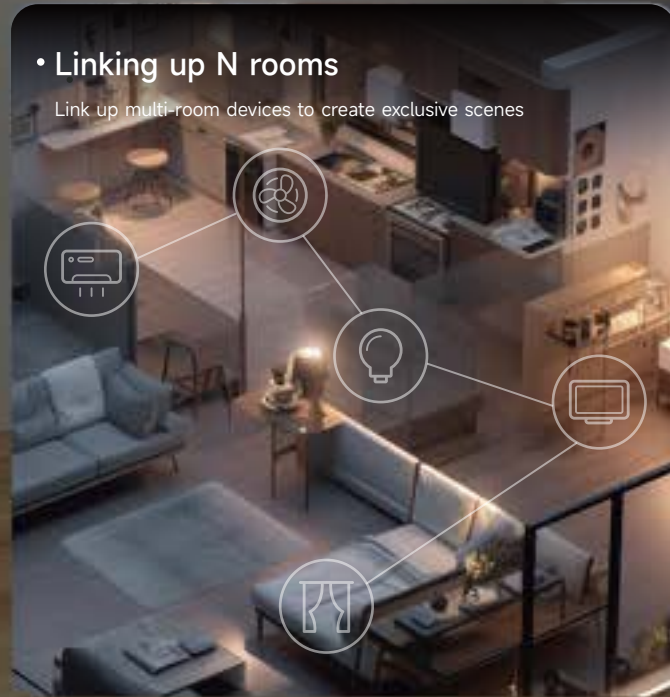

Full display | Touchscreen & APP interaction | Multi-protocol compatible | OTA update

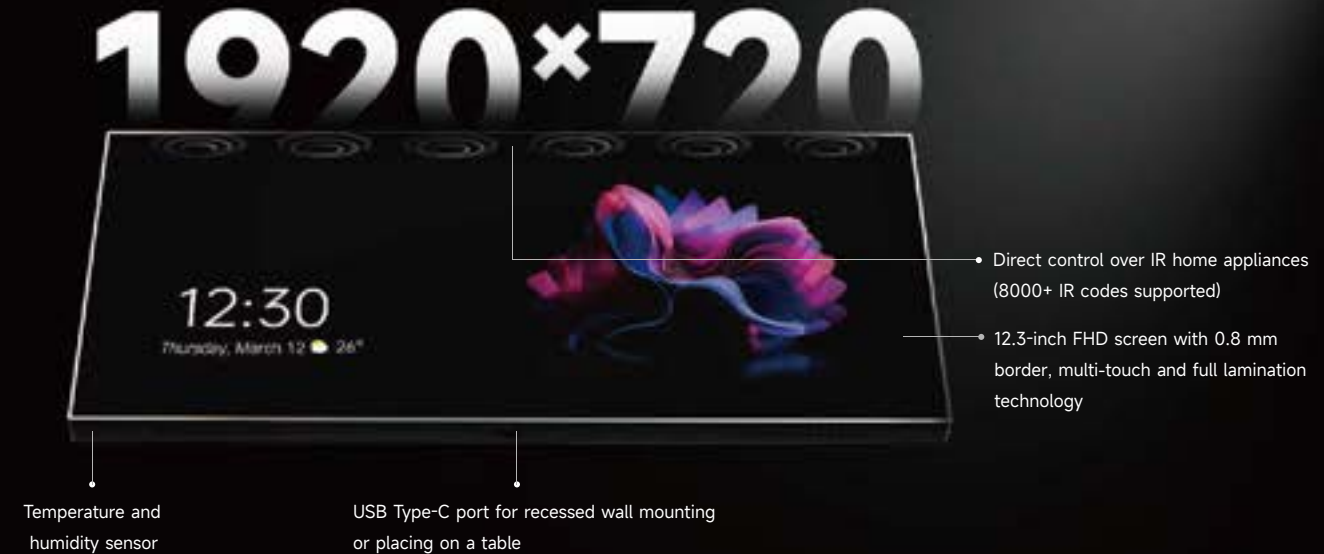

Smart linked actions are more considerate

Making the entire home connected

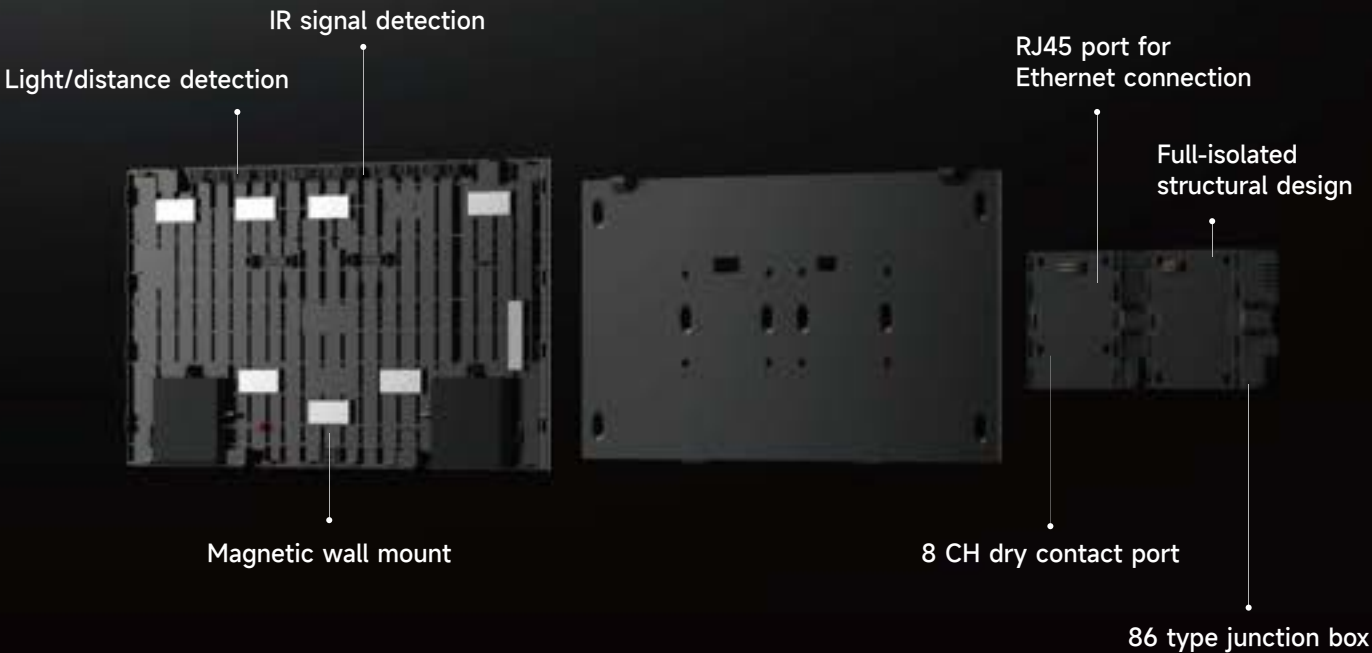

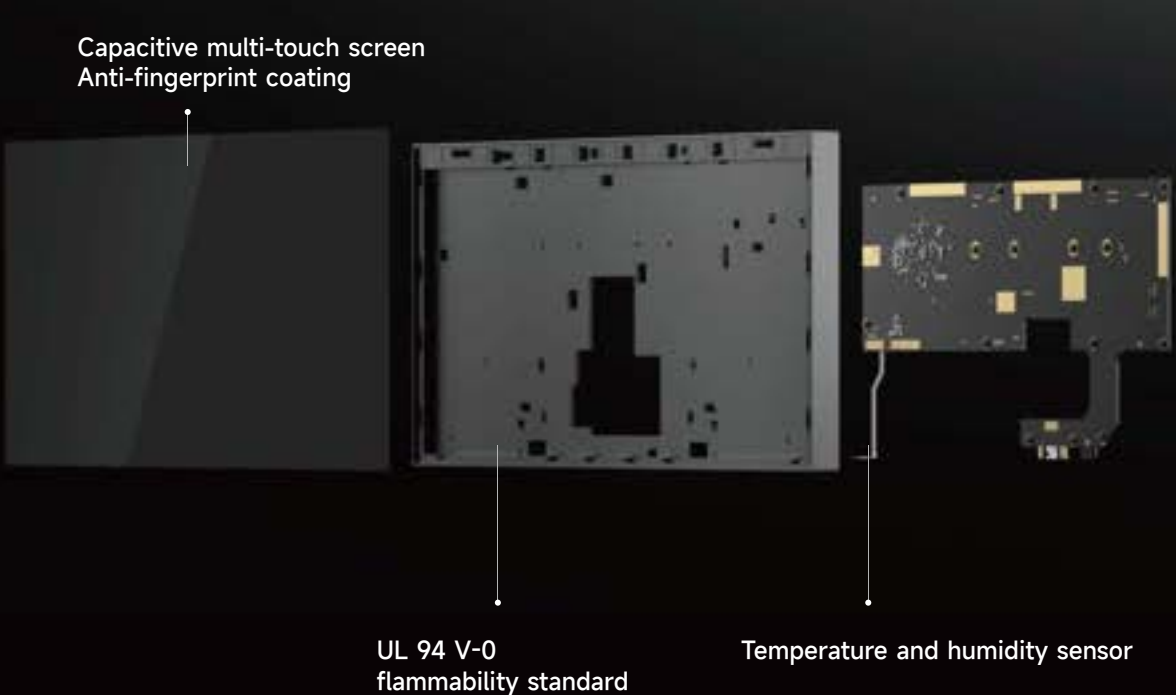

High configuration for best performance

Meticulous Craftsmanship

Support recessed wall mounting or placing on a table

SUPER Super Panel 6S

An all-around smart panel

Ensuring the full connectivity for the entire home

SP-GW-6S

SUPER Super Panel 4S

Serve as a personal butler that
helps you easily enjoy
your smart life

Make smart control easier

4-inch HD full screen

Multiple communication
protocol options

No limit for the number
of connected devices

Multiple control
modes available

Auto screen
brightness adjustment

Auto wake up when
approaching within 12 inches

SP-GW-4S

Super Panel

Whole House Smart Control Center

- Enable extensive control over smart devices
- Provide multiple interaction modes
- Deliver ultimate experience

SP-GW-BLE / SP-GW-PRO

SUPER Creativity Series

Build smart panels
that you expect

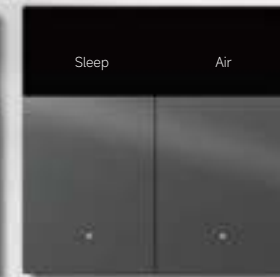

Borderless PMOLED Display

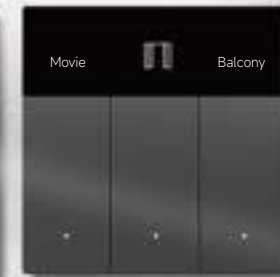

- Color OCA
- On-screen display: text and icons are shown on the screen and can be easily changed with the APP

S1 PRO

S2 PRO

S3 PRO

SQ PRO

Smart, user-friendly screen display

Post a personalized message on the screen (supporting max 36 characters)

Convert traditional lights into smart ones

Short press: Turn light ON/OFF, perform scene
Long press: Adjust brightness, CT, light colors

SUPER ✚

Activated Series Smart Switches

Actions are performed instantly with just one tap on the wall panel

Enhance your home's aesthetics with a great combination of wall panels

SQ

S3

S2

S1

SUPER 

Activated Series 6 Gang Smart Switch (S6-B)

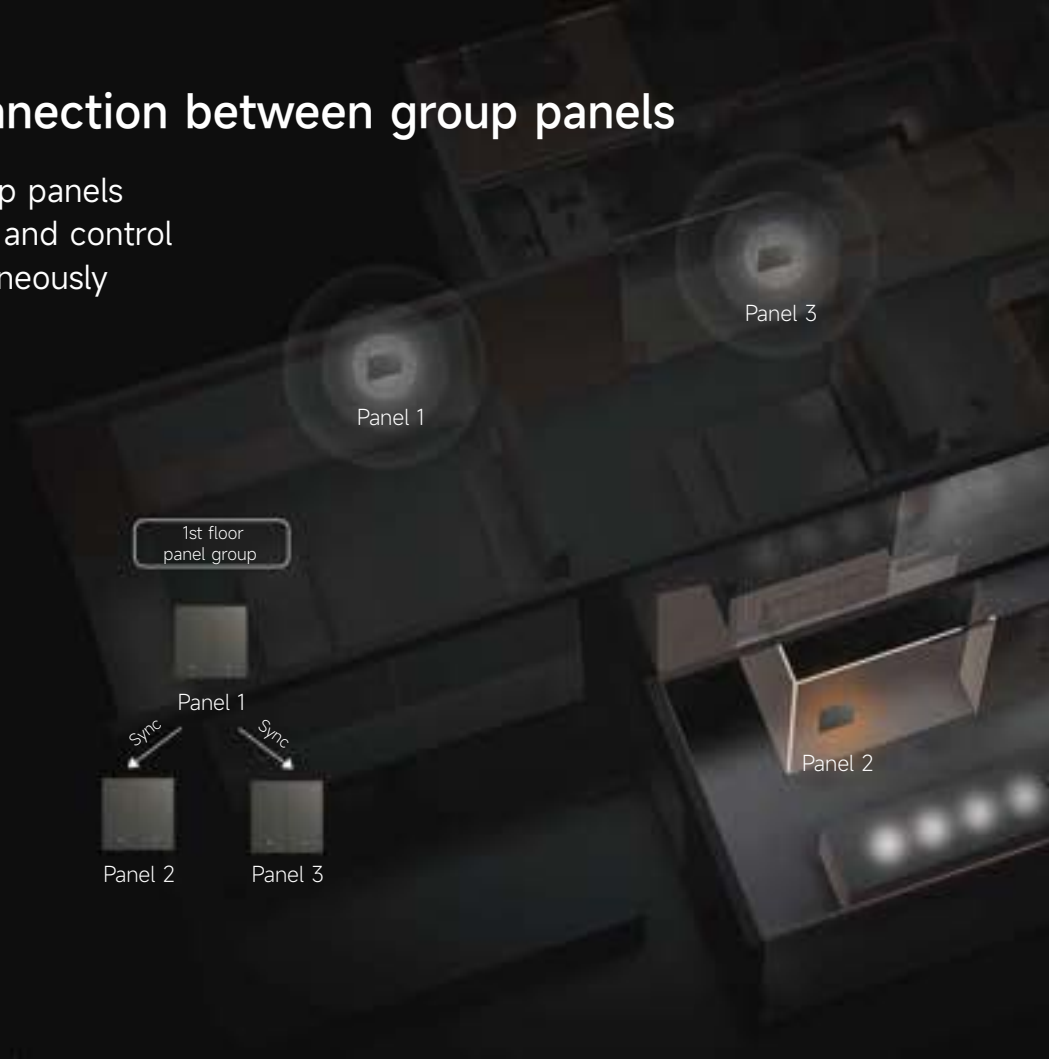

Illuminate your life as you wish

Allow smart linkage and support recessed wall mounting
or placing on a table

Automated interconnection between group panels

Freely and quickly sync group panels
Set up multi-location access and control
several panel groups simultaneously

Give you great flexibility in choosing the installation mode

Directly install the panel in the 86 type junction box
Place or stick it on a flat surface

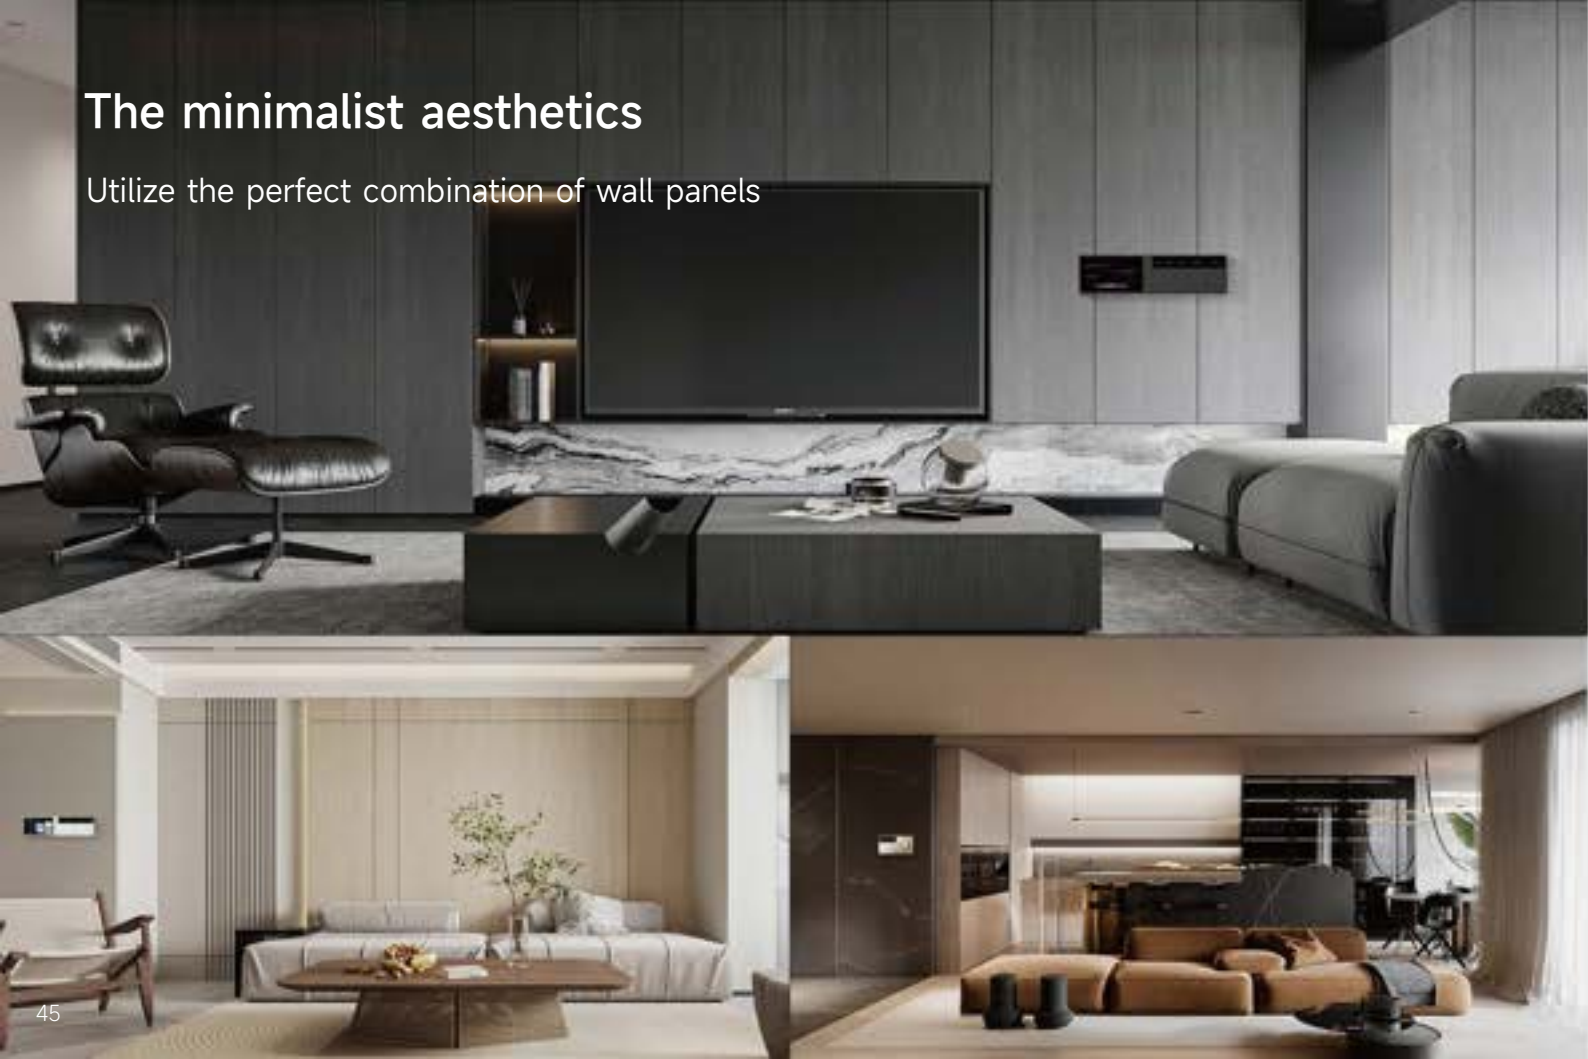

· Junction box AC powered

· Battery powered

The minimalist aesthetics

Utilize the perfect combination of wall panels

Create a cohesive look for your walls

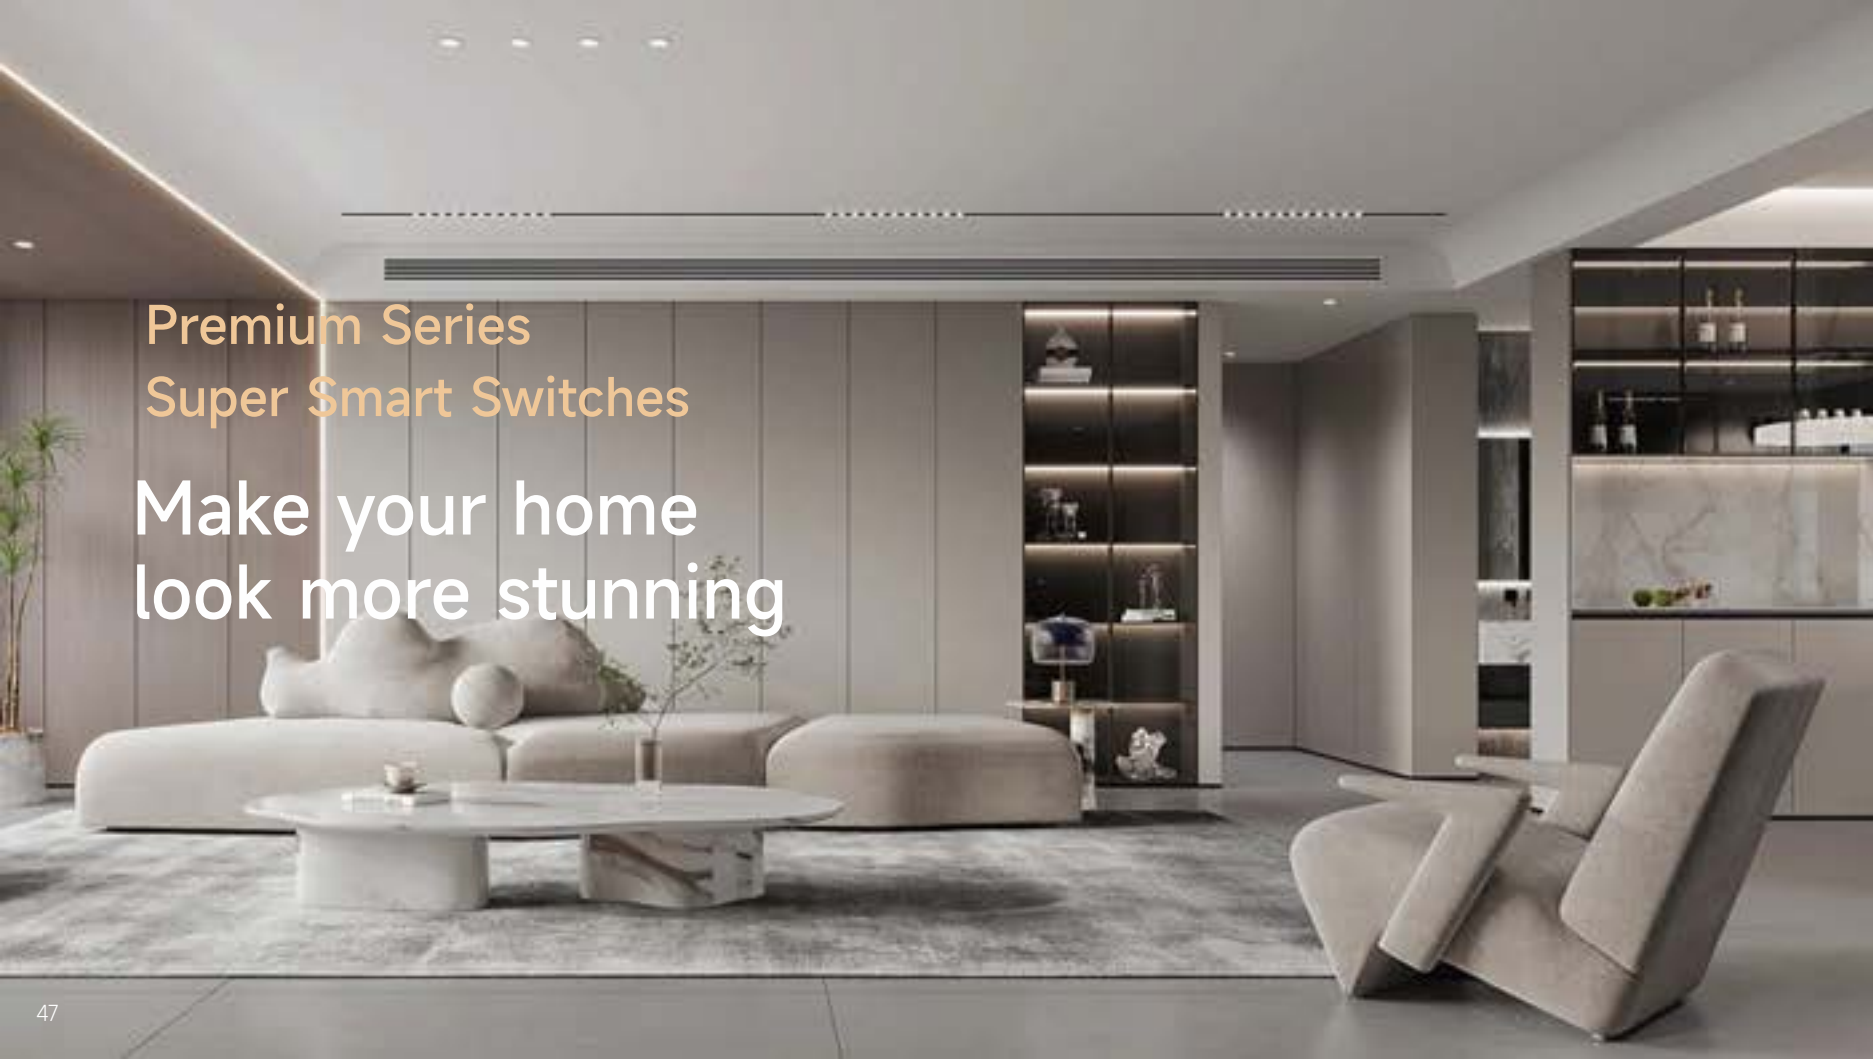

86 type junction box | 400+panel combinations | Unified mounting frame

Double panel mounting frame

Triple panel mounting frame

Quad panel mounting frame

Premium Series Super Smart Switches

Make your home
look more stunning

The flat panel design and evenly spaced 250gf buttons make a visual impact and deliver a perfect user experience. Switches use CNC technology with aviation aluminum alloy and have undergone the pressure test 100,000 times that deliver the best quality possible.

S8M

S4M

Gold

Grey

Elegant Series

- Break with traditional installation ways and allow custom installation, such as placing on a table and pasting anywhere
- Control all various types of luminaires in the house
- Provide excellent user experience and get lighting setup via a long press and a short press
- No need to run electrical wires or drill wall holes. Paste it and be ready to use
- Work with gateway devices to control lights by automation

PS-BLE01

PS-BLE02

PS-BLE04

Bluetooth LED remote

- Use Bluetooth 5.0 SIG Mesh and work with Bluetooth LED drivers to control multiple types of lights in different areas of your home.
- Powerful functions and simple operations. Turn various types of lights on/off and change the brightness and colors of lights.
- Achieve smart linkage using the app. Put lighting control in the palm of your hands and enjoy the smart life.

Take total control of all your home appliances

Get the right temperature, light intensity and have audio and video control with a diverse range of smart accessories. You can connect more smart devices to work together. Say goodbye to the traditional control method for home appliances and embrace the smart one. Get your entire home under control in the palm of your hands

Home Appliance Module

Control all your electronic devices by one tap

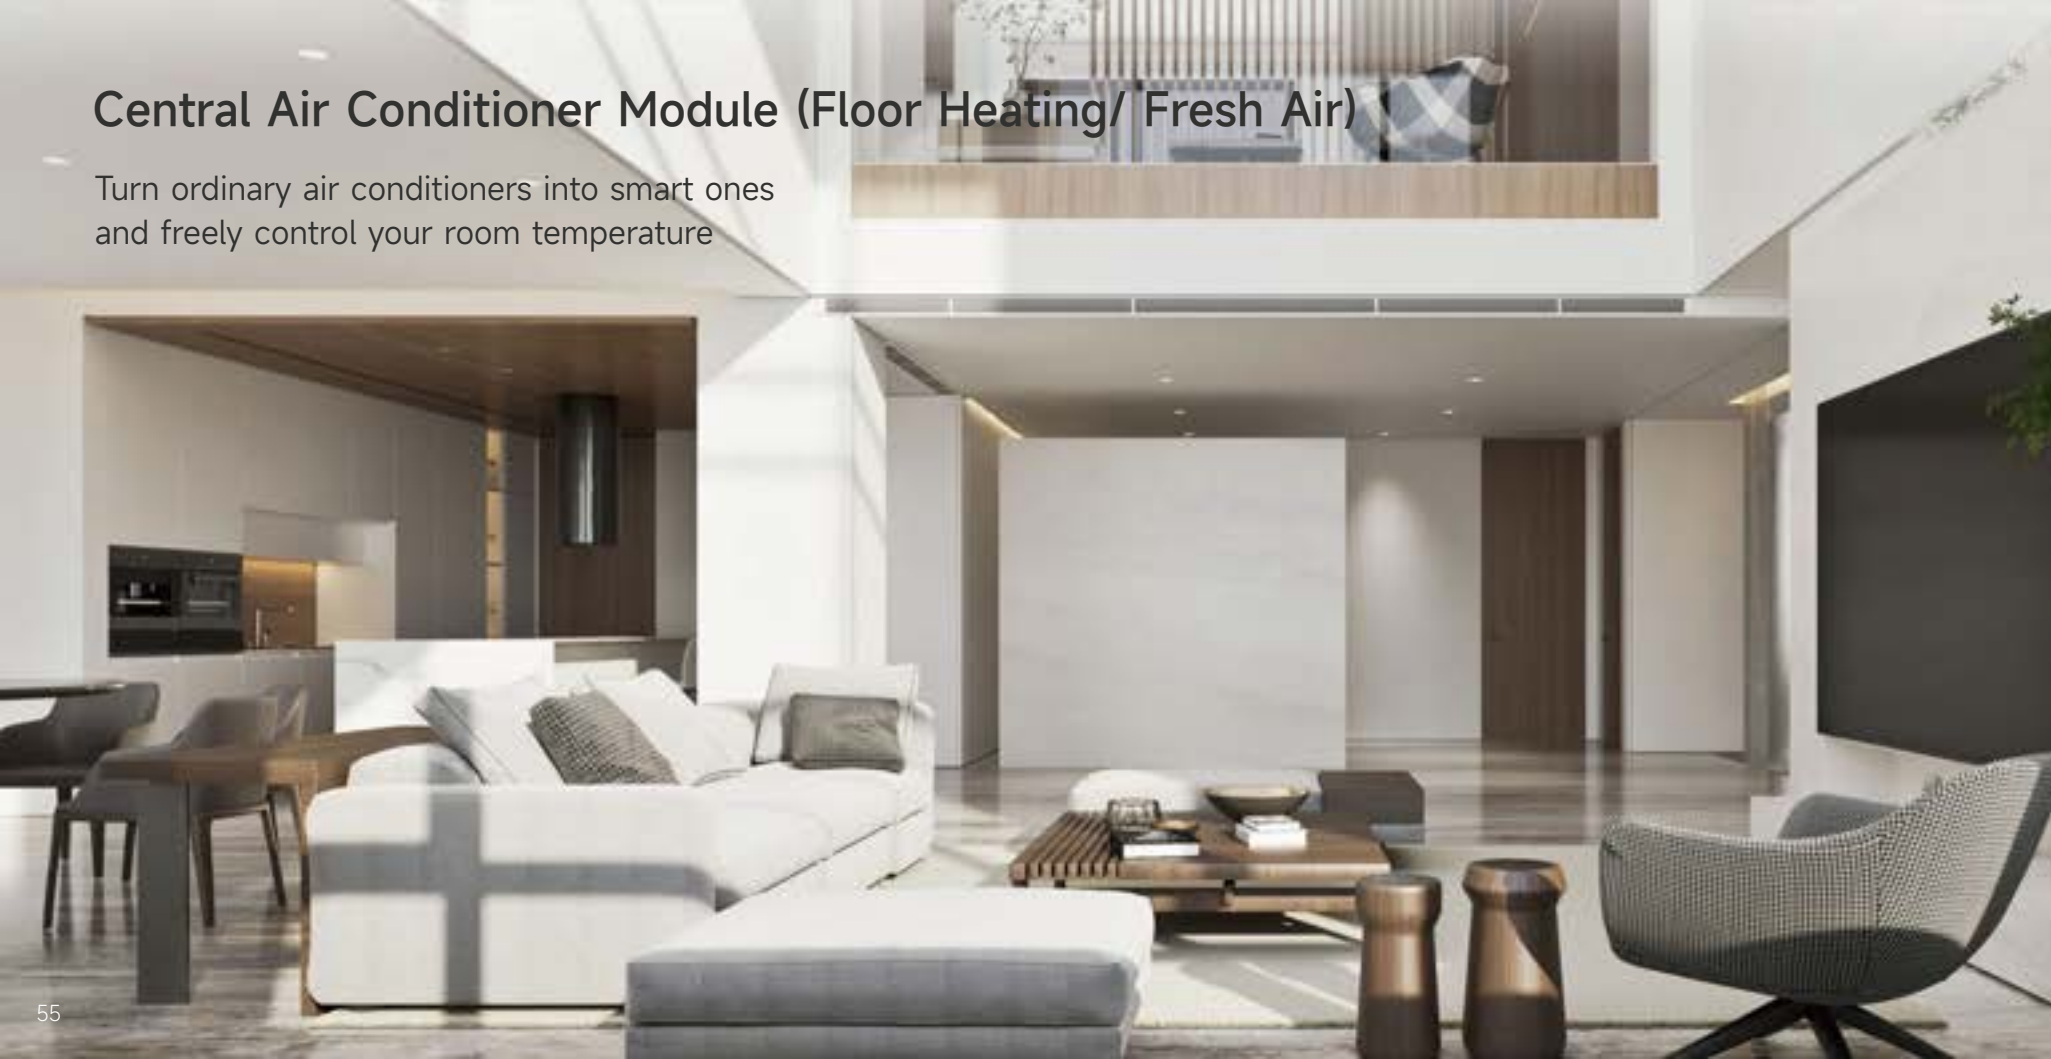

HAM-BLE

- Remotely access your devices via Wi-Fi, 4G/5G, and support remote firmware upgrade for the latest version
- With the database of 8000+ infrared codes, more than 95% of infrared home appliances on the market are compatible
- Support cloud scenes, local scenes, cloud automation and local automation to suit vari

Central Air Conditioner Module (Floor Heating/ Fresh Air)

Turn ordinary air conditioners into smart ones
and freely control your room temperature

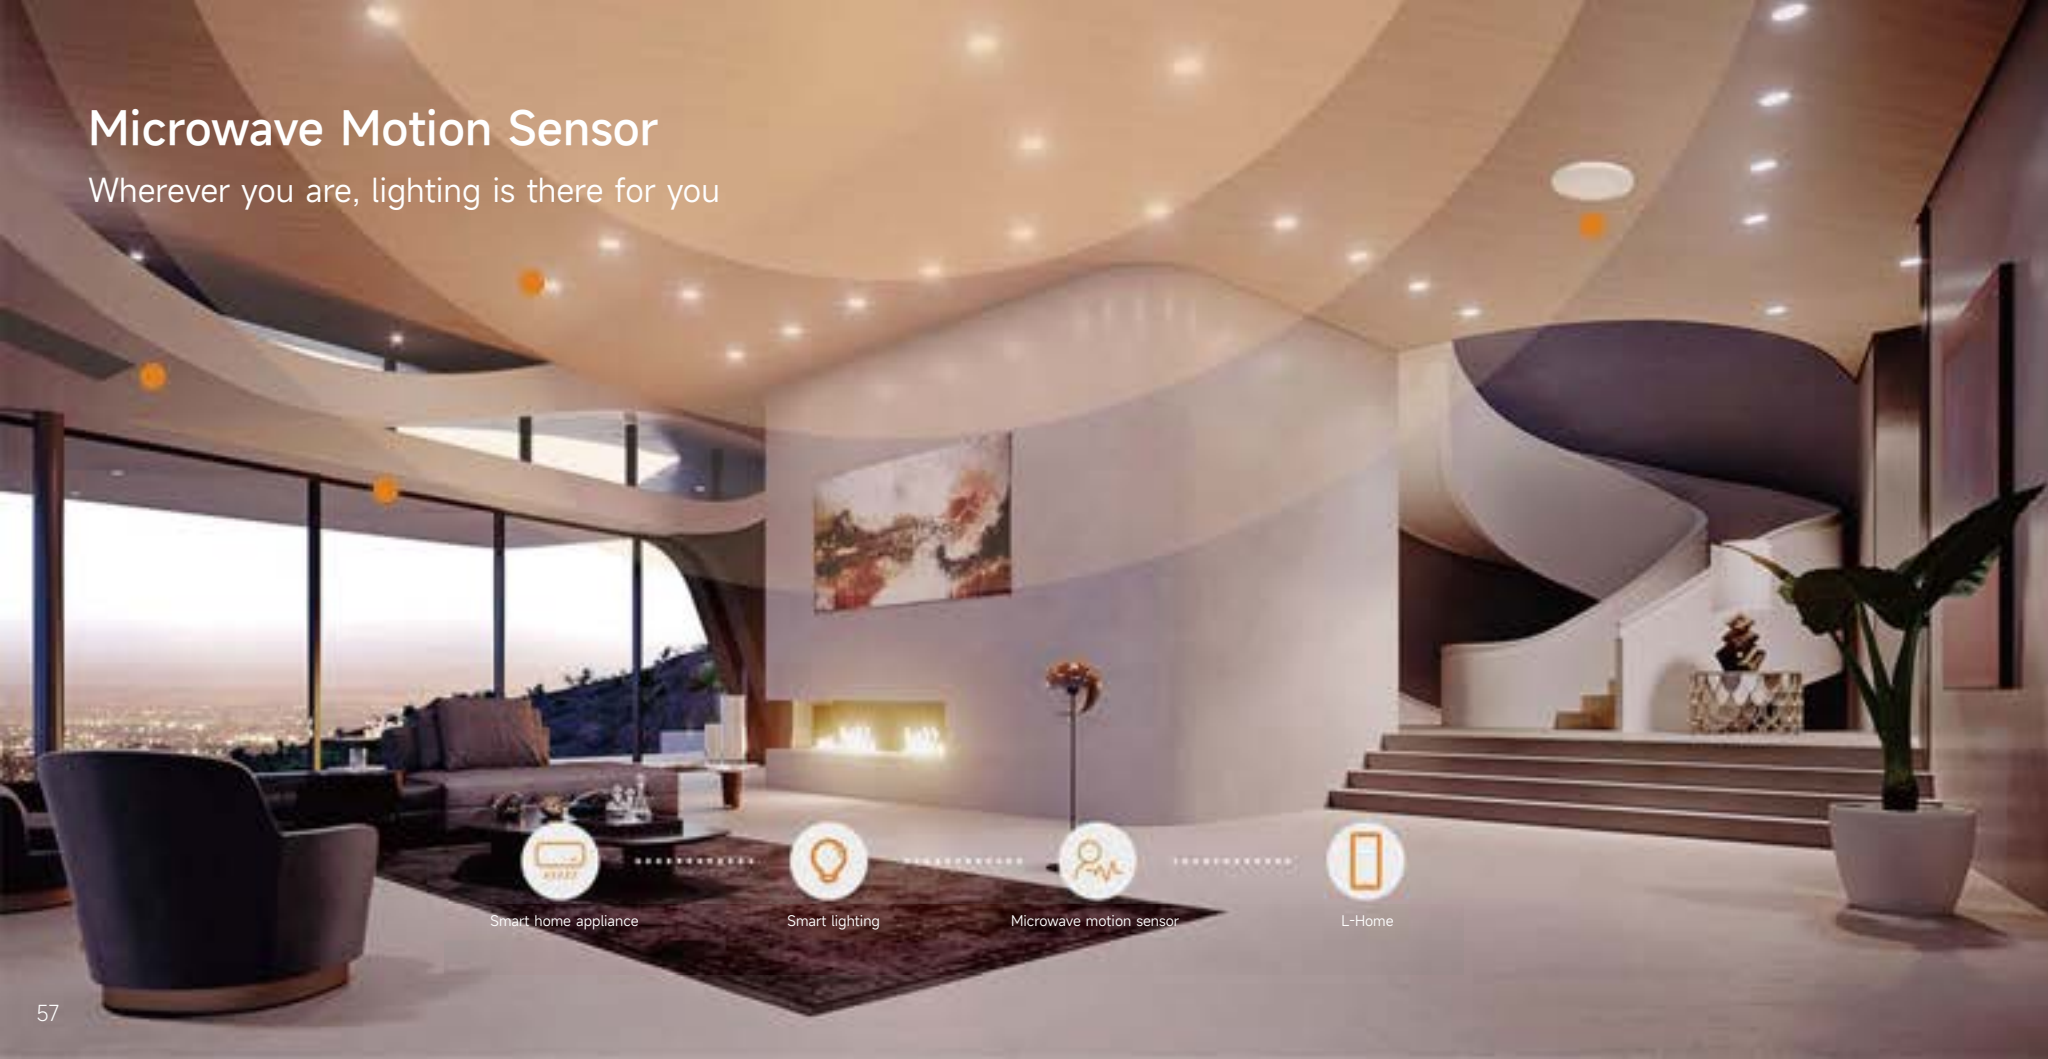

CG-AIR

- Access remote control via the app
- Gain timing control
- Work with smart air conditioners that support scene linkage
- Achieve linkage with other smart home devices

Microwave Motion Sensor

Wherever you are, lighting is there for you

Bluetooth Music Player

- Use advanced Bluetooth 5.0 SIG Mesh networking technology and controlled by RDM/DMX 512 protocol
- Connect with our L-Home IoT Cloud Platform through Bluetooth Mesh
- Provide multiple playback options, such as USB flash disk, TF card or mobile phone
- Support multiple output modes, such as wired active speaker or Bluetooth speaker

CG-AUDIO

Bluetooth Curtain Motor

- Controlled remotely via the app, remote or voice commands
- Silent DC motor. It runs smoothly and generates less heat
- Automatically memorize the position of the curtain and operate automatically when the power is off.
- Soft start function. Automatically stop if the curtain meets resistance during operating.

CG-CUR15

CG-CURH3

Dry Contact to Bluetooth Module

CG-TB

- Use Bluetooth 5.0 SIG Mesh networking technology that features fast transfer speed and stable signal
- Compatible with third-party dry contact control systems to give more flexibility when using this product
- Connect to our L-Home IoT platform
- Combine our Dry contact to Bluetooth module together to link with multiple homes
- Support local scenes that can still run without the Internet or a gateway

Bluetooth to Dry Contact Module

- Use Bluetooth 5.0 SIG Mesh networking technology that features fast transfer speed and stable signal
- Connect to our L-Home IoT platform
- Combine our Bluetooth to dry contact module together to link with multiple homes
- Support local scenes that can still run without the Internet or a gateway
- Support third-party smart device control

CG-TRIG

RELAY-BLE01

Single-Channel Bluetooth Relay

- Quickly turn on/off the device through Bluetooth control
- Work with a Super Panel, a smart wireless switch or a smart remote. Control it via the APP

Super Smart Drivers

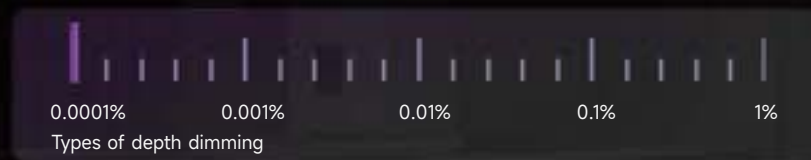

T-PWM[®]

Adopt T-PWM super depth dimming technology that it is ideally suited for use in various lights, including linear lights, downlights, spotlights, magnetic track lights, etc. Create healthy, comfortable and smart lighting environments.

T-PWM® dimming technology that achieves dimming down to 0.0001%

Super depth dimming level: 0.0001%

Testing standard: Lamp $\frac{\text{Current of maximum brightness}}{\text{Current of minimum brightness}}$ For example $\frac{300\text{mA}}{\leq 0.0003\text{mA}} \geq 0.0001\%$

*Data comes from LTECH laboratory

Super Wireless Modules 2.0

Wired +Wireless solution

CG-T
BLE - Triac

CG-D
BLE - DALI

CG-DAM-PRO (3 in 1)
BLE-DALI, 0-10V, DMX

- Compatible with four major dimming protocols, suitable for applications in homes, commercial spaces, etc
- Adopt the advanced Bluetooth 5.0 SIG Mesh networking technology
- OTA upgrade enables automatic and timely upgrade of firmware
- Cover four major dimming interfaces and control DIM, CT and colors of various lights
- Provide multiple parameter options to meet the demands of any occasion

DALI LED module

Ultra robust, intelligent module offers exceptional convenience

Bluetooth 5.0 SIG Mesh

Binding to a smart switch

Group programming

Batch modification

CG-D-PRO
BLE - DALI

- Support batch modification of DALI driver parameters
- DALI groups and DALI scenes are programmable
- Combine Bluetooth products to create local /automated scenes
- Support binding to a smart switch

Constant Voltage LED Drivers

Soft start dimming creates a gradual and smooth transformation for enhanced visual comfort

LM Series

- New technology for dimming lights down to 0.0001% lets you freely select the optimal brightness
- Flicker-free dimming, high frequency exemption level. It is kind to your eyes
- Controlled via a panel, a remote or your phone. Achieve consistency of lighting effects among multiple devices
- User-friendly design. Built-in soft start function produces a warm glow

Constant Current LED Drivers

Provide exceptional lighting for you

SE Series

- High performance, great quality. Flicker-free, soft lighting
- Ultra small, thin, lightweight
- Rubycon capacitor, 5-year warranty
- Control all various types of luminaires in your home
- Simple and elegant with screwless clamshell design. A perfect combination of art and utility.

Magnetic Track Light LED Drivers

Magnetic Track Light LED Drivers
Constant Current DIM/CT

- Meet the IEEE1789 standard. Flicker-free, high frequency exemption level
- Simple installation. Quiet, no high frequency noise
- Only 15g in weight, suitable for STUCCHI standard housings
- 48V low voltage design, protection against polarity reversal
