MARK OF PROFICIENCY

PROGRESSIVE | PROACTIVE | PROFICIENT

Complete solutions covering **EdTech**, **Audio-Visual integration**,
and **Furniture**

About us

PROMARK takes great pride in being part of the "Make in India" initiative, which aims to promote and develop India as a manufacturing hub for the world. The company is committed to producing high-quality, innovative products that are made in India and contribute to the growth of the Indian economy. As a pioneering venture into a unique field, PROMARK adheres to global standards in technology and quality, standing alone in its commitment to excellence while proudly representing the "Make in India" initiative.

Message from Management

On behalf of the entire team at PROMARK TECHSOLUTIONS PRIVATE LIMITED, We would like to extend our heartfelt gratitude for your continued support and trust in our products and services. Your patronage inspires us to constantly strive for excellence and deliver the best possible solutions to meet your evolving needs. As Mahatma Gandhi once said, "Be the change you wish to see in the world," and we take that message to heart as we continuously improve our operations, communication, accountability, and decision-making.

Our **Vision**

Our vision is to be a trusted partner in progress for our customers, known for our commitment to innovation, sustainability, and excellence. We aspire to create a culture of continuous improvement and growth, where our team members are inspired to exceed expectations, push boundaries, and embrace new challenges. By staying true to our core values of honesty, integrity, and reliability, we aim to make a positive impact on the communities we serve and be recognized as a leader in our industry.

Our **Mission**

Our mission is to be a true partner in progress with our customers by exceeding their expectations through continuous product and service evolution and improvement. We are committed to fostering an environment that supports the performance, achievement, growth, and development of every member of our team, making us the preferred employer for talented and passionate individuals. We believe in conducting business in a fair, honest, and ethical manner, with a focus on maximizing business returns and making our associates proud of their association with us.

An Interactive Flat Panel Display (IFPD) is a smart touch-enabled screen that combines display, writing, and collaboration features in one device

-  Android Version 14.0 or above
-  OCTA/Quad Core
-  Zero Bonding Type
-  Type C Full powered
-  ≥7H Toughened Glass
-  5.0 Bluetooth version or above
-  8GB RAM or above
-  128GB Internal Storage or above

GOOGLE EDLA CERTIFIED FOR A TRUE GOOGLE EXPERIENCE

Promark Interactive Flat Panel Displays are officially Google EDLA certified, ensuring an authentic and secure Android experience. With built-in Google Play Store, educators and professionals can easily download and use thousands of trusted apps for learning, collaboration, and productivity. The panel runs on the latest Android 14, offering smooth performance, advanced multitasking, and a user-friendly interface.

-  **Google Play Store Access**
Access educational and productivity apps directly.
-  **Powered by Android 14**
Latest, fast, and user-friendly interface.
-  **Optimized with Google Services**
Smooth and optimized performance.
-  **Built-in Google Docs Editor**
Edit and share files with ease.
-  **Google Play Protect Security**
Enhanced data safety and device security.

Promark Information Kiosk is an advanced interactive terminal designed for information sharing, navigation, and digital communication in public spaces, institutions, and corporate environments.

Information kiosk(K-Type)

Promark K type Information Kiosk is designed to provide an engaging and user-friendly digital experience for visitors through its sleek, modern design and responsive touchscreen display.

- Sleek and modern design draws more attention.
- High brightness display ensures visibility even in well-lit areas
- Digital Kiosk— reduces paper usage over time
- Touch-enabled for real-time engagement and navigation.
- Energy Efficient

Promark PTZ Camera is a high-performance auto-tracking camera designed for meetings, classrooms, and conferences. It automatically follows the presenter's movement, ensuring clear and professional video output. With Full HD/4K resolution, wide-angle lens, and smooth pan-tilt-zoom control, it captures every detail with precision. Supporting USB, HDMI, and LAN connectivity, it easily integrates with interactive panels and online platforms like Zoom or Teams, making it ideal for smart learning and corporate communication.

PRO 500V

- Smart auto & voice tracking for smooth focus.
- 4K Ultra HD clarity at 60fps.
- 20x optical zoom with sharp details.
- 4-mic array for clear voice pickup.
- Wide pan $\pm 170^\circ$ and tilt $-30^\circ \sim +90^\circ$.
- Auto framing with intelligent zoom.
- Rich interface for easy integration.

PRO 3008

- High resolution 4K Ultra HD video quality
- Wide range 340 degree pan and 120 degree tilt
- Multiple control options via remote and PC
- Memory storage for up to 255 preset positions
- Fast and accurate 60 degree per second rotation
- Smart AI tracking with sound and gesture control

PMTS-71PN

- 4K Ultra HD clarity at 60fps.
- 25X Optical Zoom Lens
- USB3.0+HDMI+LAN+SDI Full interfaces, Rich Application Scenarios
- Next-generation human and facial recognition tracking algorithm
- Infrared Remote Control Signal
- Transparent Transmission Function
- Multiple Video Compression Standards

Crystal-Clear Voice Detection

Dynamic Zoom with Wide Coverage

Unrivaled High Quality

Multiple Installation Options

Promark Document Camera & Visualizer enables clear and detailed live presentation of documents, books, objects, and 3D models. With high-resolution imaging, zoom capability, and flexible viewing angles, it is ideal for classrooms, training rooms, and conference environments.

PM-DC-01

- 8MP HD camera with autofocus for sharp images.
- Supports image, video, and document formats.
- Scans in just 1 second.
- 3264×2448 high resolution output.
- USB-A & USB-B connectivity.
- LED light for clear results in low light.
- Real-time Annotation

PMV-01

- 16MP Ultra HD sensor for crystal clear images.
- 8x lossless zoom at 1080P resolution.
- A3 shooting range for large documents.
- HDMI, VGA, and USB triple output support.
- PC-free mouse control for real-time annotation.
- Direct TF card storage for photos and videos.

PMV-0

- 8 Mega pixel HD scan
- Comes with LED filllight
- Physical scan Videorecording
- A4 large format
- Compare with the screen
- OCR text recognition
- Multiple output
- Withbrowsingfunction:16screens

OPS (Open Pluggable Specification) is a standard that enables easy integration of computing modules into display systems like digital signage and interactive panels.

How is OPS used with IFPD?

- You plug the OPS directly into the IFPD.
- It works like a built-in PC.
- You can run Windows, open files, browse the internet, and use apps — all on the IFPD screen.
- No need to connect any external computer.
- Additional storage

Windows OS

4K
Compatibility

i7 & i5
(4th/11th/12thgen)

Benefits of using OPS

Easy to use – Just plug and play.

No extra wires or devices
(Everything runs from the screen itself)

Works fast
(Like a full computer)

Good for online meetings
and presentations

PRO AI5W

4K ePTZ Camera:
Delivers ultra-clear video quality with smooth electronic pan, tilt, and zoom functions.

DSP Audio
Advanced Digital Signal Processing reduces noise and echo for superior sound clarity.

AI Auto Framing and Face Tracking Function
Stay perfectly centered with intelligent auto-zoom and pan. Effortless professional video.

AI Speaker Tracking
Automatically focuses on the active speaker for an engaging experience.

10m Pickup Range
High-performance microphones capture crystal-clear audio from up to 10 meters away.

20W Speakers:
Powerful built-in speakers ensure clear and loud sound output.

Omnidirectional Voice Pickup

4 microphone array with 2 extension mics for voice pick up range to 10m.

Long Endurance

Built-in 3000mAh battery, that can last up to 10 hours of conversation. Provide clear, smooth and stable audio and video experience.

Wireless Extension Microphone

With two wireless extension microphones to enlarge voice pick up range up to 10 meters. Suitable for people 10-15.

Dynamic background reduction

With dynamic noise reduction technology, enjoy clear and smooth video meeting.

PRO BTB7

PRO BTB3

8 hours of battery life
Built-in 3000mAh battery Up to 10 hours meeting.

Wireless connection
Built-in high quality Wireless module, connect with various Wireless device and minimize cable clutter.

360° voice pickup
Built-in 6 microphone for 360° voice pickup with radius up to 3 meters.

Works with most video conferencing applications
Compatible with most of video conferencing software, like Skype for Business, Zoom, WebEx and so on.

Hi-Fi audio
Built-in Hi-Fi speaker. Lifelike and fullvoice.

Plug-and-play USB connectivity
1.2 meters USB cable, plug-and-play with any PC or UC platform.

Clear Audio
Full-duplex echo cancellation (65dB), noise compression, auto gain control, and intelligent mic direction for crystal-clear sound.

360° Pickup
4-meter range with 100Hz-22kHz frequency response and 85dB speaker output.

Multiple Connectivity
Bluetooth, Type-B USB, and 3.5mm audio in/out interface.

Long Battery Life
5200mAh battery for 8+ hours use and 90-day standby; USB powered option.

Smart Control
LED indicators for status, easy buttons for volume, mute, and calls.

Certified & Reliable:
CE and RoHS approved, low noise (<48dBA), and compact 152×152×38mm design.

PRO VC232

PRO MINI

4K UHD

A 1/2.7" UHD CMOS sensor with 8.29MP supports 4K@30fps output, offering clear and detailed video quality.

110° Wide Angle:

A 110° ultra-wide lens reduces distortion and automatically adjusts the view using group framing technology.

6M Clear Audio Pickup

Built-in beamforming microphones with noise suppression and auto gain provide clear voice pickup up to 6 meters.

Full-Featured USB 3.0

USB 3.0 supports power, video, and audio through one cable and allows input from two video sources and one audio source.

Ultra HD 4K Clarity:

Capture every detail with an 8MP sensor and 4× digital zoom. Supports 4K (3840×2160) resolution at 30fps for lifelike visuals.

Crystal-Clear Audio:

Dual omnidirectional microphones with advanced 3A processing (AEC, AGC, ANS) deliver noise-free, natural sound up to 7 meters away.

Smart AI Tracking:

Built-in AI enables auto framing and speaker tracking, ensuring you stay centered and in focus during meetings.

Plug & Play Compatibility:

Works seamlessly with Windows, macOS, Android, and Chrome OS. Compatible with Microsoft Teams, Zoom, Cisco Webex, and Google Meet.

PRO UP4C

PRO C470

5X Digital Zoom

Zoom in and move around to get a closer view with precision when you need, using Innex software.

Auto-Framing

Camera embedded AI-based smart framing. Capture all participants and automatically adjust to the best framing position.

120° Wide View Angle

Designed for small meeting spaces, capture more with less space required

Omnidirectional Noise-Cancelling Mic

Built-in two mics that pick up your voice from all sides up to 4m / 13ft. Detect and filter the background noise.

Low Light Correction

The DNR technology ensures crisp and clear visuals even under low light conditions.

Omnidirectional Noise-Cancelling Mic

Built-in two mics that pick up your voice from all sides. Detect and filter the background noise.

H.264 Video Streaming

Improve compression performance and deliver high quality video within limited bandwidth.

Privacy Shutter

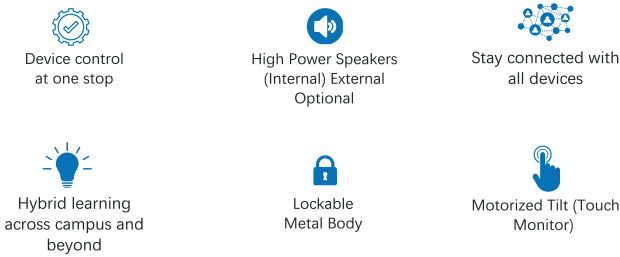

The built-in privacy shutter provides cyber security. Simple and effective.

PRO C220

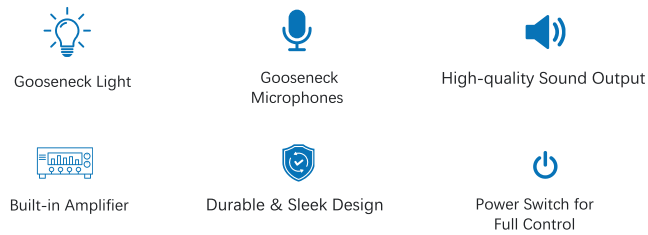

Promark Digital Podium — a modern solution for smart classrooms and auditoriums, integrating display, audio, and control in one unit.

Promark Audio Podium — designed for clear communication and powerful sound delivery. Ideal for lectures and conferences with built-in mic, amplifier, and easy connectivity options.

Promark IFPD Shutter is a protective cover designed to safeguard Interactive Flat Panel Displays from dust, scratches, accidental touch, and physical damage. It provides a secure front shield when the display is not in use, ensuring long-term durability and maintaining the panel in perfect condition. Ideal for classrooms, training rooms, and public areas where display safety is essential.

Experience crystal-clear communication with Promark's Conference System — designed for seamless meetings and discussions. It offers superior sound quality, easy connectivity, and modern design for professional spaces.

Desktop Delegate and Chairman Unit

- The microphone adopts 48KHz high sampling rate, and the sound and audio are wide and high-fidelity
- Provides noise reduction processing technology, the sound pickup distance can reach 50cm
- The chairman unit has an approval / priority optional key (customizable through the system host), and the priority key is used to control the speaking order
- The unit supports software remote opening or closing functions.
- A single host has 4-channel unit microphone connection interface, 2 channels can be ring-backed up, a single channel can carry 15 units, a single unit can carry up to 60 units, and the unit microphone can be hot-swapped.

Conference System Host

- Built-in high-performance audio DSP processing chip, providing equalizer, high-pass filter, feedback suppression, automatic gain, noise reduction, audio mixing matrix, delay and other functions. The audio matrix can realize arbitrary mixing from input to output.
- Configure and manage conference function parameters through a web browser
- With conference unit control function, support remote opening or closing of units in the system can be customized, with a maximum of 10 microphones

129 array microphone

17 PA zones and 33 Pick up zones

System Delay <18ms

Rich interfaces

Gain by 15db

The background image of the page shows a modern office setting. In the foreground, a white computer table is positioned at an angle. It has two computer monitors, each displaying a blue screen with a Windows logo. Below the table surface, there are two large black storage bins. The table has a clean, minimalist design with vertical slats on the sides. In the background, another similar desk is visible, along with a grey office chair and a large potted plant with green leaves in a white pot. The floor is a light-colored carpet.

Computer Tables

Promark office computer tables are thoughtfully designed to meet the demands of modern workplaces. Built with high-quality materials and a strong, durable structure, these tables ensure long-lasting performance for daily office use. Their ergonomic design provides comfort during long working hours, while the sleek and contemporary look enhances the overall office interior. Ideal for corporate offices, workstations, and commercial spaces, Promark computer tables offer the perfect balance of functionality, style, and efficiency.
