Your home, your way

Home is more than a functional space. It's where you express your personality and style, and celebrate special moments and memories.

Now, with our fully customizable AvatarOn wiring devices, you have even more creative design possibilities to do that.

Discover AvatarOn and make your living space as unique as you.

Your home, your way

Home is more than a functional space. It's where you express your personality and style, and celebrate special moments and memories.

Now, with our fully customizable AvatarOn wiring devices, you have even more creative design possibilities to do that.

Discover AvatarOn and make your living space as unique as you.

Fall in love with
snappy design

Find your perfect match

Truly innovative and exceptionally stylish
– that's AvatarOn.

An exquisite combination of functionality and style, the AvatarOn range features wiring devices for all your home needs and perfectly complements any interior decor.

With their sleek, frameless build, the AvatarOn switches fit snugly to the wall, while the easily changeable, snap-on covers allow for quick customization of the devices' look.

Ingenious technology

Thanks to our patented "Slim Rocker, Sure Click" technology, AvatarOn devices are not only elegantly thin, but also safer and more reliable.

Award-winning design

AvatarOn garnered one of the world's most authoritative and reputable industrial design trophies, the iF Design Award 2017.

Let your imagination run wild

Treat the glossy surface of AvatarOn as your canvas. Choose from an array of finishings to find a cover matching your interior or adorn the device with a favorite pattern or photo.

Design your cover in just a few clicks using a dedicated online order platform. Your personalized design will then be printed in high-resolution digital technology, ensuring clear details and long-lasting colors.

With the easy-to-mount and customize AvatarOn covers, you can change the look of your devices any time you want, without any hassle.

Designed for ease of personalization, AvatarOn switches have innovative, **customizable covers** that can be removed and mounted with just one hand.

A release indicator makes it easy to fit the cover into place

Savor the details

More than just a switch

Have you ever struggled to find a switch in the dark? Choose the AvatarOn device with a clever soft LED locator.

Unobtrusive by day, the fluorescent white glow indicates the switch's location at night, subtly emphasizing its aesthetics.

The AvatarOn range also features a variety of helpful accessories, including a key holder and a mobile phone stand, designed for everyday convenience.

Lasting looks

AvatarOn has no elements that are difficult to clean, so your wiring devices will keep both their looks and functionality over time.

Explore a variety of functions

Not only endlessly customizable, but also ingeniously functional, the AvatarOn range boasts a broad selection of functions, from switches and sockets, to connection units and accessories. So you can easily find a device for any of your home needs.

Environmental Data Program

Next-level transparency for better-informed product choices

The Environmental Data Program is a framework for how we measure, categorize, and compare the environmental attributes and footprint of our products.

Using a rigorous, fact-based methodology, the program provides environmental data from across the product lifecycle.

Five data categories across the product lifecycle

Use Better: How sustainable a product is, including environmental footprint, materials and substances, packaging, and energy efficiency.

Use Longer: How a product's life time can be effectively extended in terms of reparability and updatability.

Use Again: How a product can be reused, from dismantling and remanufacturing to recyclability and manufacturer take back.

With this transparent, verified data, customers and partners are empowered to make conscious environmental choices and accurately evaluate and report on sustainability performance.

All our hardware offers have an associated environmental data available on se.com product pages.
