Smart Door Locks | Alarms & Surveillance | Safes

Trusted every day

Our story

At Yale, we have a 180 year history of trusted innovation.

Everything we are today, we owe to the inspirational ingenuity of Linus Yale Senior and Linus Yale Junior. The Yale lock tradition started around 1840 when Linus Yale Senior opened up a lock shop specialising in expensive handmade bank locks. Inspired by a 4,000 year old Egyptian wooden lock, he built the first models of the pin-tumbler lock he had developed.

To manufacture them, he built a small lock factory in Newport, USA in 1847. His son, Linus Yale Junior, took up his father's trade. Technically very talented and with a number of ground-breaking inventions, he made his father's pin-tumbler lock design suitable for mass production in the early 1860s and changed the industry forever.

Linus Yale Junior and his colleague, Henry Towne, established the Yale & Towne Company in Stanford, Connecticut in 1868. By the early 20th Century, they employed more than 12,000 people and had expanded globally. Even today, the pin-tumbler lock by Linus Yale Junior is the most widely used type of door lock in the world.

Part of ASSA ABLOY Group since 2000, Yale is the leading residential brand of the Group.

Beside the world's most

Yale in the Middle East

Yale Middle East is the market leader in residential security solutions and offers an extensive range of products catering to the varied demands of the market. The products are handpicked from millions of product combinations globally, ranging from mechanical locks, smart products like alarms and cameras to door solutions and connected smart locks; and adapted to meet the diverse needs of consumers across the Middle East region.

Yale first set foot in the Middle East with Lebanon in 1940, and today, has physical presence in 14 countries through some of the region’s top distributors, and online presence with key ecommerce accounts.

Yale Middle East not only offers its customers high quality products, but also ensures they enjoy an excellent after-sales experience. With an expert team of professionals trained on the latest products and technology, and a warranty period of 1-10 years across its products, Yale aims to instil trust and a sense of security for its consumers across the region, as these values are at the core of what we do.

Our customer care team is available for installation services and technical support - please call our toll free number 800 YALE (9253) or scan the QR code below to book your installation online.
